

Know what earns subscribers and what to do next

Substack shows activity. Subshack connects that activity to subscriber outcomes, then turns the evidence into a short list of useful actions.

Real product interface with demo data

What Subshack does

FREE PROFILE AUDIT Score any public profile out of 100 across 17 checks and five categories. No sign-up.	NOTES AND ARTICLES Compare reach, engagement, opens and subscriber attribution. Find the Notes and articles worth learning from.
TODAY Work from a short, evidence-backed queue of profile, content, follower, relationship and reader actions.	PEOPLE CRM Segment prospects, superfans and creators; see relationship signals, recency, conversations and follow-ups.
WELCOME DMS Choose automatic sending or prepared drafts. Review the setup first; daily limits, quiet hours and pause controls apply.	DATA AND CSV Sync Notes, articles and subscribers, then export Notes, Note subscribers, articles or the subscriber list to CSV.

Why creators use it Less dashboard wandering. Fewer vanity metrics. More time on the readers and formats that move the newsletter.

Free now Subshack 1.0 is free to install and use.
